Write, draw, and scroll with ease using the Antimicrobial Active Stylus for iPad®. The durable POM tip provides a natural pen-like experience, allowing you to write and draw accurately and comfortably. And thanks to its palm rejection functionality, you can rest your hand naturally on the screen and write as smoothly as you would on paper.

The active stylus requires no drivers or Bluetooth® connection to function. Simply touch the stylus to activate — or leave idle for 5 minutes to trigger its power-saving Sleep Mode. Charge for 30 minutes and enjoy 10 hours of continuous working or 6 months of standby time.*

For an added benefit, this stylus features DefenseGuard™ Antimicrobial Protection, an infused protective finish to the material that creates a cleaner surface and protects the stylus.** With instant connectivity and a long-lasting battery, the Antimicrobial Active Stylus for iPad is a superior choice for precision and comfort.

* Wireless charging not supported

** Antimicrobial protection is limited to the device itself. This Antimicrobial Active Stylus for iPad® has been infused with an antimicrobial additive. Active ingredient: Silver Phosphate Glass (nano-) EPA Est/ 99234-CA-1
